

A Little Complicated

Ryan Borja met the guy of his dreams in college. Brady Novak was kind, responsible and easy on the eyes. Yeah, the guy had a kid but Ryan loved her too. What could go wrong? Well, Ryans sister Ellie, thats what. Ellie is a flighty, love-em-and-leave-em kinda girl with a big heart who doesnt realize she dated the guy Ryan had fantasized about. But, like all of Ellies other relationships, this one ended within two months, just in time to send Brady running off to take a job in Phoenix, taking Ryans heart with him. Ryan never thought hed see Brady again until eight years later Ryans sister blindsides him by announcing that not only is Brady back in Atlanta but shed asked him out on a date. And hed accepted. As if that wasnt enough to send Ryan on a tailspin, he finds out the neighborhood girl brings him face to face with Brady. Brady cant believe when he sees Ryan again. He assumed Ryan had moved on from Atlanta, like hed always said he would. But Brady hasnt forgotten his cute, nerdy friend and wants nothing more than to have a chance to try the relationship they never got to have all those years ago, but convincing Ryan that he hadnt slept with Ellie proves difficult. Ryan is still hurt over the way they left things and makes it an uphill battle, but Brady has waited too long. Hell damn well give a good go of trying to get his man and with the help of his precocious teenage daughter and a little help from friends they may just get their Happily Ever After.
