

## Unscripted (The Scripted Series Book 1)

His gaze on me was intense, I couldn't look away. I felt as if I was revealing my entire soul to him in this moment. The range of emotions I had experienced with Ronan felt like a topsy-turvy spinning roller coaster. Suddenly I was awake for the first time in what felt like years. Every fiber of my being was filled with heated desire, passion, lust and fear, and all I wanted was more more of everything, more of him. How had I just lived these past few years only going through the motions? But, as glorious as all of this was, was I kidding myself? Could it be real? Or just a moment in time - a few days of thrilling and scary excitement rolled into one? The moment before you hit that first big drop on your favorite coaster, you fall, and then it's over. This isn't your typical Hollywood fairy tale where the typecast ordinary girl next door meets the famous handsome actor and they fall in love. Despite the emotional and physical scars that serve as reminders of Holliday Prescott's past, she has evolved into a strong young woman. Ronan Connolly has loved and lost, but he's never been in love. The weight of Hollywood's expectations and the scripted games people play have left him bruised but not broken. He's always followed everyone else's script and she wrote her own. That was until fate swept in with other plans. **MATURE CONTENT** This story contains sexually explicit material and is intended for mature individuals over the age of eighteen.
