

Spirit of Dragons (The Dragon Wars Book 1)

Houston police detective Miranda Thompson has dedicated her life to helping others while searching for answers in the gruesome, unsolved murder of her parents when she was a child. On her thirtieth birthday, she receives a mysterious gift left behind by her late father and suddenly finds herself transported back in time to 1066, awakening on the very battlefield where William the Conqueror is staging his conquest of England. But there is another, secret battle being waged on the field this day. Lathan Aro is king of The Kindred, a dwindling race that is all that remains of an ancient clan of dragon brethren. Together with his dragon spirit, he is fighting for his life to return to his people with a lost spell book of ancient dragon magic that could save them from extinction. But he is facing a powerful enemy who will stop at nothing to gain the book for his own race, the Draoi. When a beautiful woman literally falls from the sky into Lathan's lap, she miraculously gives him the power to defeat his enemy and escape the battlefield with his life and his precious prize. But to his horror, she claims to be from a future where magic doesn't exist and where dragons are only myth. Does this mean his quest will fail, his people destined to die out and fade into oblivion? Despite her shock and disbelief, Miranda is drawn to the handsome warrior who claims that magic is real and that he communes with dragons. But she is even more shocked to discover that she has magic herself, and that she is able to wield it to ease the pain Lathan suffers from the illness that curses all members of his race. Determined to find answers and a path back to her own world, she accompanies Lathan on his journey to return the spell book to his people. But the Kindred's enemies have not given up, and danger stalks them at every turn. Miranda soon finds herself the focus of the oracle that sent Lathan on his quest, but the Kindred are far from accepting of a

woman not of their race. There are dark forces at work in this world, forces that target Miranda. She has a choice: risk her life and her heart for Lathan on behalf of a people who do not trust her, or try to find her way home, where those who murdered her parents now stalk her. Torn between her desire to return to the future and her desire for Lathan, who awakens feelings she thought long dead, Miranda must determine if she's really in the wrong time and place, or if her time and place is at Lathan's side no matter what danger she faces.
