

Demolition Girl

A cyberpunk tale of disobedience and discipline, Demolition Girl is the story of Tyler, an explosives expert with little regard for the law. She has five million problems and they're all owed to Boss, the mob overlord of the burned out city of Baltham. When Boss gets tired of waiting for Tyler to pay back her debt, he puts a special man on her case, a compliance specialist by the name of Jeremy Blade. Tyler's not exactly used to doing as she's told, but Jeremy has firm ideas about how the chronically misbehaved woman should be treated and most of them have to do with the liberal application of his hard palm to her very deserving bottom.
