

Fool for Love Anthology

Not every love story starts out pretty, and Fool for Love has plenty of pranks, blunders, and misunderstandings to prove it. Whether its two college students assuming the worst or a visit from The Trickster himself, this collection of romantic near-misses and second chances shows that a rough beginning might very well lead to the happiest ending of all. In Cant Stand the Heat by Keelan Ellis a not-so-friendly prank on a would-be sous chefs competition goes too far, and backfires in more ways than one. L.J. Hamlin's Cherry Bomb introduces us to a world-weary Dom and a young fraternity brother who get off on the wrong foot, but learn that trying something new might be exactly what they need. In Coffee and Chaos by Jessica Chase, an ambitious detective believes that his new partner is a joke, but soon realizes that he may not be quite so perfect himself. In Lynn Townsends Had Me at Cheese Fries, an orderly and a nurse discover that, if they can survive April Fools Day in the emergency room, they can make it through anything, as long as they do it together. In Kangaroos Next 200km by Asta Idonea, a young man learns that taking a drunken dare in the outback might not have been a very wise thing to do, but being rescued by a sexy, older trucker on a tight schedule could be the best thing that's ever happened to him. A secret admirer teaches a Valentines Day-hating baker that romance isn't dead in Moonlight Masquerade by D.M. Roberto. In DC Lowry's Rough Love, two college classmates discover that being perfect for one another may not be enough to keep them together unless they learn how to communicate before things fall apart. Fifteen years is a long time to make up for, but in Lila Mathews Rough Waters, two former best friends realize that forgiveness is sometimes the only way to a new beginning. In Tomatoes and Mangoes by Monica Wang, two geeky game-night

enthusiasts discover that nothing says I love you like a never-ending stream of tricks and teases. An unexpected encounter turns a college student's ideas about his own sexuality inside out in Cassandra McMurphy's *The Date*. Nothing would delight Loki more than humiliating the god of thunder himself in *Trickster69* by Charles Payseur too bad his heart won't get with the program. Love is love no matter if it happens by misdeed or mayhem and these short stories cover it all. From uncertain flirtations to the most determined pursuits, everyone has the potential to be a Fool for Love in the end.
