Angie was the best in her field when she ran up against an arch villain who neutralized her field agent. This looked bad on the record, but even worse she did the unspeakable: she fell in love with her replacement field agent, Alistair McInnis. Alistair lied his way through the admission process and is far smarter than any one thinks. But when he finds himself on a suicide mission, Angie has to break all the rules to save him. Does she succeed? Remote control is story of a possible present in which women run the world hidden behind proxy male mouthpieces. It is both a romantic comedy and an action adventure story.
