

Facebook Jeanie

Its Bridget Jones meets Groundhog Day... Ever wonder if you made the right choice? What if you could go back and find out? 31-year-old Clara is in a steady relationship with Facebook. Every night after her depressing bureaucratic job (so much for saving the world), Clara comes home to her empty apartment (yes, she was dumped) and settles down with a pint of ice cream for some good, old-fashioned Facebook stalking. Its her college boyfriend, The One Who Got Away. With the bod of a God and a net worth of umpteen bamillion, he now has the perfect life everything she could have had if she hadnt been so, so stupid. But, wait. Jeanie from Facebook shows up at Claras job. Theres a new app theyre beta-testing and Claras perfect for it. That night she clicks on it and... nothing happens. But the next morning when Clara wakes up at noon, hung over, listening to her roommate blow-drying her hair and singing Gettin Jiggy Wit It, she realizes shes back in college. With the chance to do it all over again. Back in the world of frat parties, BFFs, and long-suffering, overlooked lab partners, join Clara as she discovers what it really means to hit the reset button on life. What could possibly go wrong? And, this time, can she get it right?
