Do you often get tired of losing track of your various usernames and login information from membership sites, shopping sites and other web sites?? Do you also get tired of creating a pile of sticky notes with passwords on it?? This password journal was designed to help keep you organized and give you some peace of mind. Keep all of your internet passwords, usernames, web addresses and login information in one place. More Security Password Books are More Secure Than Saving your Passwords to a File on Your Computer or to a database. Its much easier for people to tap into your passwords and personal information if you save this info on a web site or file on your computer. Keeping your passwords and other info in a paperback book greatly reduces the number of people who can find your passwords and other information. For Additional security you can also keep this journal in a private place in your home, rather than out in the open. Please click on the Look Inside feature to make sure this book is right for you. **Holds 300+ Internet Addresses and Passwords **EXTRA LARGE 8 X 11 Size with Room for Notes in the Margins **Stylish Covers with small wording on the front for additional privacy (We also sell this book with several different cover styles.
