

Plan B (Blackwater Falls) (Volume 2)

Life was going fine for Camron MacKay. His plan to marry a nice girl, settle down and have a couple of kids seems to be right on track until the mating urge hits the cougar shifter on one dark of the moon night. He soon realizes that the only mate for him is the gorgeous, young, hard-drinking, wild-as-hell Travis Sutherland. Camron tries his best to roll with the punches. He tries to explain to Travis how things will be. Hell be the boss, Travis will straighten up and quit his irresponsible ways and together they'll try to find a way to work things out, even though legend says no two clan males could ever live together without killing each other. But while Travis is perfectly willing to have a little fun with the handsome Camron, he has absolutely no desire to settle down and refuses to even consider Camron's plans for the future. That's when Camron decides he has no choice but to fall back on Plan B.
